Day Goons.—It has been correctly remarked that the reduced duties on imported goods, falling on a higher cost of importation than last season, realize higher prices this season. The importation thus far is very limited. Trade is backward, but has fairly opened, a d promises well. The signs of promise consist in improved collections making in the West and South-west and North, and in the increased means, arising out of an abundant harvest for replenishment of stocks, which we lower than usual season for the control of the cont New York, August 13. ment of stocks, which are lower than usual even for staple goods. Silk goods are steady in price, and a fair business is doing in both fancy and staple kinds. Assortments are in good variety, and of inviting character. There is a serious difficulty experienced in getting goods through the Custom House, which has checked business not a little, and incon-House, which has checked business not a little, and inconvenienced many importers, who now want their goods for delivery. All the leading houses who are independent of a risky trade are limiting their credits. Credits beyond six or eights months are dangerous, and are unnecessary for goods sold to those who want only the time usual for turning their goods into cash, which is generally of much shorter date than the credit they receive. The competition of brade should rather run into selling at moderate rates of profit than into giving long credits—the risk attending which embraces prices to all customers; for such sales must have a guarantee in some shape, or failure will ultimately reach the guarantee in some shape, or failure will ultimately reach the relier on a large scale on a long credit. Foreign woolens are in better demand, and at steady prices. In ribbons we observe a large supply, bo h of old and new stock. Some sales have been made, and prices are firm at an advance of those of last season. Domestic goods are in better demand, but hardly equal to the usual demand for the season.—
Prices are steady, with a partial advance on cotton goods. There is a considerable stock of both cotton and woolen goods in the market, and here is a disposition evinced to offer more freely through the auction room, relying on a supposed buoyant feeling in the market. Brown sheetings

JUSTICE & GALBREATH'S COTTON PLANTER AND CULTIVATOR

THE Patent Right of this new invention is offered for sale by the in-ventors. This Planter was invented by an old cotton in saying it is the best imementever off red to the oth. This Machine consts in the following par culars and works as fol ridge, and opens the fur row, and drops the seed. and covers them up; thus completing the whole of the work at one going over, and saves the labor horses; and does the work done in the usual way and also, saves at leas; one-half the Beed that

could be used in the usual way of sowing. Remember seed is worth 50 cents per bushel. This Machine is also an elegant Cultivator, after the Colion is up. The front plow, happer, and covering block may all be removed, and Scrapers screwed in. And then you scrape both sides of the row, and harrow the ground, and plow the cotton, if necessary, all at once; thus saving the labor of at least 5 or 6 hands. The above Machines can be go' up at a cost of not over eleven dollars, and can be sold in the South for \$ 5 or \$80 as fast as they could be manufactured or shipped there. Do not let anything prevent you making an investigation of our Cotton Planter. We challenge the world to show a better or more labor saving and useful implement for the purpose recommended. The first objection is yet got to be set up against it.

A small model of our Planter may be seen at the Suwance House, College street, Nashville. We have set the Patent Right of this Muchine at 2 % cents on the bale of cotton produced of any State. Reference being had to the Statistics We can be seen at the Sewance House at present. After a few days, address

Railroad, 14 miles from Nashville, and three-quarters from La-ON FRIDAY, AUGUST 21ST., We will sell to the highest bidder, on the premises, about two hundred acres of land, including the homestead of the two hundred acres of land, including are money-can be the late Matthew Nelson, with all the improvements, consisting of a Frame Dwelling House, containing seven rooms, with all necessary out houses, such as Gin House, Cotton Press, &c. There is about 150 acres of disared land, the balance well timbered, with a never falling stream of water running through the centre of the tract, besides some two or three good Springs. The soil is excellent, and is superior to any yet offered in point of fertility. Its proximity to Nashville by Rafiroad, and the advantage of being close to Lavergne, where there is established Steam Saw and Grist Mills, tesides good Schools, Churches, &c., &c., which makes it altogether desirable. The tract will be divided, a plat of which will be exhibited on the day of sale. We would ask an examination of the property before the day of sale as we are confident it is superior land, and affords advan-

tages over any that has been offered to the public. Terms of Sale: One-third payable 1st December next, balance 1 and 2 years, without interest. E. R. GLASCOCK, Auctioneer. August 11, 1857. - d, treawid
